# Seuic

android enterprise recommended

# AUTOID®10

New generation one-handed operation of industrial-grade mobile terminals

**Inventory details**

CP202206140001 | Product name 1

---

## Continue the one-handed operation of AUTOID®9

Upgrade

One-handed operation for touch screen and keyboard in keeping with the golden ratio ergonomic design

---

# Facilitate efficient data collection on the frontlines

## Store management

·Store operation
·Anti-fake and Anti-channel conflict
·Stock-Sale-Inventory management

## Production management

·Raw material management
·Production line management
·Quality inspection

## Warehouse management

·Sorting/Packing
·Receipt / Shipment
·Inventory management

# A brand-new platform is being developed with a more powerful "Core" capability.

Qualcomm Octa Core(8): 2.0GHz(4)+1.8GHz(4)

Android 11 OS is integrated, allowing iterative upgrades to ensure a longer life cycle.

## 3 Technological Innovations

**Hot-swappable batteries allow battery replacement without shutting down, preventing work interruptions and data loss**

**NFC design on the top, high-convenient reading cards**

**Core technology for AI Scanning, accurate and fast identification**

· AI+ new generation scanning technology, the performance is improved by 2-3 times

· AI+OCR increases recognition speed by 2 times

**Retails**
| Bubble warp/Thin film | Screen Barcode | Curved barcode | ... |

**Warehousing**
| Scratched barcode | Dirty barcode | Curved barcode | ... |

**Manufacturing**
| High Density Barcode | Matte silver material | Metal DPM | ... |

**OCR**
| Parts stamp recognition | Stipple character recognition | Frames and Car license plate recognition | ... |

## 7 Technological Upgrades

16 Hours

5360mAh

· **WI-FI6 Ready** technology, internet speed is increased **by 2-3 times**
· **5360mAh** High-capacity battery，long standby battery for **16 hours**
· **4-inch** bright screen, readable under the sunlight
· Front scanning indicator light design, precise response, improved work efficiency
· The speaker at the bottom can reach a volume of **105dB**, and the reminder sound in noisy environments is still clear and bright.
· The industrial IMD keyboard has been designed for **5 years** of durability; the Enter key is enlarged for finger positioning easily; 2 shortcut keys are customized for convenience.
· **IP67** dustproof and waterproof, **1.8 m** drop to concrete. With the highest level of protection, it is easy to handle when it is in contact with water, dust, and falls.

## Options and accessories convenient expansion to meet a variety of conditions

| Pistol Grip | Protective Cover | Single Slot Cradle Charger | 4-slot Battery Charger | 5-Slot Cradle Charger |
